FDC MIAMI
WARDENS OFFICE

5. Federal Prison System Directive, Executive Order, or Statute violated:
 Master Agreement Articles 27 Health & Safety

6. In what way were each of the above violated? Be specific. Management continues to accept inmates at the Receiving & Discharge area (R & D) after hours and weekends when there are no Medical and R&D staff present. These inmates are then sent to the Special Housing Unit (SHU) and throughout the building pending medical screening. This practice raises the inherent hazards to the bargaining members and is not a sound correctional practice by exposing them to potential airborne and other contagious diseases that the new arrivals might be harboring. Management persistence to place our members and inmates in a health and safety risk for infectious diseases is primary for administrative convenience and to save monies for the agency. New arrivals should be kept in R&D until Medical staff evaluates them because there are U/V air filtrations devices that serve to eliminate and protect any airborne diseases that could be present in the area.

7. Date(s) of violation(s) November 11, 2009

8. Requested remedy (i.e., what you want done)
