Subject: Grievance for Chairs for the Officers

As you all are aware the Union has negotiated with Management the buying of new chairs for the Officers in the Units and other posts.

The agreement was signed by both parties, but Management took it upon themselves to only buy certain chairs and omitted other areas like Control, Visiting Room, Front Desk, and Medical Officer.

The Controller, which acts like this is her money and not the Government, has acted like she will only buy what she feels she wants.

She buys great chairs for her staff, but screw everyone else, **Local 501 will not tolerate this disrespect and disregards to our members and to our Officers that are the forefront of this place!**

I have submitted a Formal Grievance to the Warden on this matter and I expect that these chairs are provided to us as we deserve them.

I will post a copy of the Grievance on our web site soon, so you can read the details, in the mean time **Local 501 is taking ACTION in this matter and others as we speak.**

Thank you and at your service
